2. Modeling and Simulation in Education
3. Modeling and Simulation in Engineering
4. Modeling of System Security
5. Modeling and Simulation in Business
6. Petri Nets
7. Simulation Tools, Techniques and Methodologies
8. Web-based and Agent-based Simulation
9. Simulation in Industrial and Academic Research
10. Computer Network Simulation Models
11. Medicinal and Biological Simulation

#### **VENUE**

*Rožnov pod Radhoštěm* is a small town situated in the east part of the Czech Republic called *Moravian Valachia* (Valašsko), which is formed from picturesque *Moravskoslezské Beskydy* mountains and the Vsetín peaks (Vsetínské vrchy). The region of Moravian Valachia gets its name from the shepherds – Valachs – who settled in the 12<sup>th</sup> century. With the joining of the mountain shepherds and the farmers, who settled in the valleys and mountains of this region, came some exceptionally charming national traditions, and started the establishment of the impressive traditional

architecture in the form of wooden buildings, which even now are a part of the strong folklore tradition. You can see interesting samples of this tradition in the Open-air Museum directly in the town.

#### **NOTICES**

Conferences languages are English, (Czech and Slovak too). Send one copy of a full paper (max. 8 pages A4, 12 pt) to the conference program committee contact address. The presented results must be unpublished and not submitted for publication. Papers will be reviewed. Authors will be notified of acceptance or rejection by February 15, 2009.

Accepted papers will be published in the MOSIS '09 proceedings. The deadline for submission of a camera ready paper in a specified format is March 3, 2009.
